Compass, China, 220 BCE . by Susan Silverman AC. Earliest records show a spoon shaped compass made of lodestone or magnetite ore, referred to as a "South-pointer" dating back to sometime during the Han Dynasty (2nd century BCE to 2nd century CE). The spoon-shaped instrument was placed on a cast bronze plate called a "heaven-plate" or diviner's board that had the eight trigrams (Pa Gua) of the ...

Many western history books over the years have stated that the Chinese used this discovery only for fireworks, but that is not true. Song Dynasty military forces as early as 904 A.D. used gunpowder devices against their primary enemy, the Mongols. These weapons included "flying fire" (fei huo), an arrow with a burning tube of gunpowder attached to the shaft. Flying fire arrows were miniature ...

The need for the Zhou to create a history of a unified China is also why some scholars think the Xia Dynasty may have been an invention of the Zhou. The Zhou needed to erase the various small states of prehistoric China from history, and replace them with the monocratic Xia Dynasty in order for their Mandate of Heaven to seem valid (i.e., to support the claim that there always would be, and ...

Tang Dynasty. However, this kind of printing tech was expensive and time-consuming. Until the Song Dynasty (960-1279), a man named Bi Sheng (990-1051) invented movable type printing, making it quicker and easier. He first carved individual characters on pieces of clay and then harden them with fire. These movable type pieces were later glued to an iron plate to print a page and then broken ...

The Song dynasty was an era of Chinese history that began in 960, directly after the chaotic Five Dynasties and Ten Kingdoms period. It was the first government in world history to issue banknotes and the first Chinese government to establish a permanent standing navy; it saw the first known use of gunpowder and the first recognition of true north using a compass. The Song dynasty was divided ...

[World Population is Over 7 Billion - What's your number?](#)

Chinese history is divided into dynasties, each of which marks the period when a line of emperors ruled. The first empire was the Qin dynasty and began in 221 B.C. The last emperor was overthrown in 1912, and China became a republic. The communist government began its rule in 1949 following a civil war with the Chinese Nationalists. Ancient China was a land of invention. For centuries, China ...
