At the most basic level, an interval is the distance between any two notes. Intervals are how we relate notes on the keyboard to one another. Intervals are usually measured in semitones or half-steps. One semitone is equal to one key on the keyboard. For example, the distance from C to C# is one semitone as is the distance from E to E#. For more practice with intervals, check out this ...

MUSIC: Circle of 5ths. There exists a Phi relationship in our musical scale! It is based on the translation of the fibonacci numbers 2-3-5-8-13 upon the common keys of the piano. We have 13 notes in the chromatic scale. There are 8 white keys which also define the movement of the octaves (7 notes with the 8th one repeating the first). There are 5 black notes or Semitones partitioned in groups ...
