PC55MR-5 Small Hydraulic Excavator. ... The engine and hydraulic system are optimally controlled according to the operating conditions. The hydraulic loss reductions also help reduce both fuel consumption and environmental impact. ... The cab or platform can be tilted up together with the operator's seat to gain access for major maintenance ...

PC55MR-5 Small Hydraulic Excavator | Komatsu America Corp

With a redesigned cab that's redefining comfortable productivity, the CX160D excavator delivers increased fuel efficiency, faster cycle times and high performance. From standard oil sample ports and grouped service points to tilt-out coolers and auto-locking side panels, you can do daily maintenance in a matter of minutes.

CASE CX160D Excavator | CASE Construction Equipment

Excavators are heavy construction equipment consisting of a boom, dipper, bucket and cab on a rotating platform known as the "house". The house sits atop an undercarriage with tracks or wheels. They are a natural progression from the steam shovels and often mistakenly called power shovels. All movement and functions of a hydraulic excavator are accomplished through the use of hydraulic fluid, with hydraulic cylinders and hydraulic motors. Due to the linear actuation of hydraulic cylinders, their

Excavator - Wikipedia

Excavator cabs provide excellent visibility, low noise, and a comfortable working space. Well-laid-out equipment controls reduce operator movement and fatigue. With one of the largest monitor displays in the industry, the operator can easily manage machine conditions, jobsite metrics and have a high-resolution view of the area behind the machine.

Komatsu Excavators | Hydraulic Excavators | Komatsu ...

New ZAXIS is a fuel-thrifty excavator that can reduce fuel consumption by 8%*, compared to the conventional ZX450-3/ ZX450-3F family, thanks to the HIOS IIIB hydraulic system and engine control system, thereby reducing CO₂ emissions. *PWR mode vs. conventional model's P mode 8%* Reduction in Fuel Consumption

HYDRAULIC EXCAVATOR

320 Hydraulic Excavator ... a new cab focused on operator comfort, plus lower fuel and maintenance costs, the 320 will set a new pace for productivity and profit in your operation. Specifications Equipment Units: US Metric. Engine. Engine Power - ISO 9249. 162 HP. 121 kW. Engine Model. Cat C4.4. Engine Power - ISO 14396. 164 HP. 122 kW. Bore. 4 ...

New 320 Hydraulic Excavators For Sale | Carter Machinery

immediate access to engine and hydraulic systems for routine maintenance. Crank-operated bolts secure the service doors and help discourage vandalism. In addition, cab and access covers to fuel tank, radiator, and air filters may be locked with the accesso-ry key. Digging Depth and Lifting Height: 20ft. (6,10m) 15 ft. (4,57m) 10 ft. (3,05 m) 5ft. (1,52m) 5ft.

John Deere 690A Excavator

Hydraulic activation lever safely locks out all hydraulic functions. Anti-skid plating and countersunk bolts reduce slipping in severe conditions and during routine checks. A full-length firewall separates the pump compartment from the engine. A ground-level fuel cutoff switch shuts down the

engine in an emergency.
