[Behaviorisme - Wikipedia bahasa Indonesia, ensiklopedia bebas](#)

Behaviorism is a systematic approach to understanding the behavior of humans and other animals. It assumes that behavior is either a reflex evoked by the pairing of certain antecedent stimuli in the environment, or a consequence of that individual's history, including especially reinforcement and punishment contingencies, together with the individual's current motivational state and ...

2.2 Anthropomorphism and Folk Psychology. Though we might agree that animals have minds, worries arise when we start to describe what those minds look like. When researchers attribute mental content to other species, they open themselves to the charge of anthropomorphism. The term " anthropomorphism " has a number of different connotations, but most generally refers to the act of attributing ...
