In 2008, Haug sold the car so he could go Pro Mod racing, but he bought it back in 2017. The Camaro needed some updates to fit him better, and the mild-steel chassis wasn't going to be enough for what Haug had planned. He contacted Billy Johnston at Tim McAmis Performance Parts to design a new double

Testing of two M4E1's at Fort Knox (registration numbers W-3056693 and W-3057623) identified problems with the gear train, clutch, and scoring between piston and cylinder walls. Once these problems were addressed the Ordnance Committee ordered 1000 of the new engines and directed 775 of them to be installed in the new production version medium tank, the M4A6. The remaining engines to be ...
